

MOISTURESHIELD®

Vision®

BUILD BOLDLY

AVAILABLE WITH
COOLDECK®
TECHNOLOGY 

Want a more comfortable deck in the summer? MoistureShield Vision is available with our innovative CoolDeck® technology, which reduces heat absorption up to 35% compared to conventional capped composites.*

MOISTURESHIELD® *Deck Clips*

MOISTURESHIELD® *Vision®*

MoistureShield® Vision® is the latest innovation in composite decking, providing an unparalleled lifetime fade and stain warranty. This distinctive, contemporary design brings the hardwood look of a home's inside to the outside. The modern, variegated appearance complements our guaranteed performance as the only Wood Plastic Composite decking product that can be installed on or in the ground, or even underwater, without voiding the warranty.

- 25mm x 137mm & 36mm x 137mm deck boards
- Lengths Available: 3.66m, 4.88m & 6.1m
- 25/20/10 year Limited International Warranty
- 25/20/10 Fade and Stain Warranty
- Install on the ground, in the ground or underwater
- Can span 45cm (Residential) or 40cm (Commercial) when installed perpendicular on batten/joint systems
